

Teaching Signal Controls at Local 3 Union Transit Trade School

On Tuesday, February 3, 2026, I taught my first Local 3 Union class on signal control controls

Address was 48-40 34th St Long Island city Local 3 Union Electrician Transit Trade School

I loves the experience

The students kept asking me questions kept asking me to show slides of my other work, kept shaking my hand. They didn't want to leave the class..... they called me very knowledgeable....

They loved it, and I loved teaching them... What a truly amazing experience. I hope to go back soon.
